

Eliminator of harmful energies

(by Servranx Brothers)

Here it is the only one of our graphs to present the fantastic peculiarity of selectively annihilating any harmful radiation to the organism, whether it be an influence resulting from a voluntary radionic operation or natural radiation of psychic, telluric or cosmic origin.

Knowing that some radiations are good for some and harmful to others, this graph has the great advantage of working with great precision, neutralizing "only" radiation that is harmful to the control of the subject.

In addition, it provides a subconscious protective action that strengthens your individual means of defense. Do not confuse with the Shield chart (Bouclier), which is preventive.

This chart can be used by anyone, even those who are not familiar with dowsing.

It is not necessary to orient the chart to the north.
