PREFACE

After having deeply examined and studied in depth, from various angles, in the previous BASIC COURSE, how to make a radionic therapy, through some radionic remedies commonly used and fundamental knowledge of radiesthesia, together with radionic and radiesthetic graphics which helped us to energetically discover how to use a radiesthetic tool like a pendulum and to improve our natural radiesthetic faculties in order to test the more targeted radionic therapy, now we are going to concentrate on some advanced and clever radiesthetic and radionic methods in order to create, to find and channel, always in a radionic way, all natural and non natural vibrational remedies used in past and present times and also more complex psychic intents.

In this case we have also given space to the MEDICAL RADIONICS techniques with the general relevant radiesthetic table, for the localization of psychic diseases.

We'll also explain techniques about the healing at a distance and preparation of particular therapeutic fluids, through the realization of particular object- witnesses on some specific radionic circuits.

These object-witnesses will be created also according to the complete result of the guided radiesthetic test which will be after mentioned on an initial radiesthetic table, where the operator can test on the patients, a series of different natural and holistic therapeutic methods more suitable and known ; then each one method will be referred to the relevant list of remedies on other radiesthetic tables; all this in order to do a more targeted and effective treatment.

Lastly we are going to explain in a clear way other particular radionic remedies for free use, like the other of the basic course, which will complete these lecture notes of the Advanced Course of Radionics and Radiesthesia.

A NEW PROFESSIONAL FIGURE

THE RADIONIC-PRACTITIONER (THE FUTURE'S THERAPEUTIST)

Some of natural vibratory remedies, that we usually buy or that our patients buy for prices which are often little affordable to the big mass, often discourage the holistic approach to the alternative therapies; on the other hand and as far as we're concerned, it is possible (like we'll see in these lecture notes) to reproduce in a radionic way any kind of remedies, for example allopathic and natural remedies, psychic phenomenon and/or mental intents which have been expressed according to the operator...etc....we can't forget that radionically creating also an object or a physic remedy like the aspirin, an essence or a thought, it's always a mental issue like the study about waveforms and radiesthesia (look at the initial chapter of the basic course THE RADIONICS); so we can say that, having now the big advantage to radionically and radiesthesically reproduce the vibration of any our intent, the methods after described, will offer us the great advantage to make any kind of therapy through any kind of approach ON NO ACCOUNT!!!....

Trough this new, wide and fascinating science of the future, which is the radionic and radiesthesia, anyone approaching the issue, can realize an own treatment according to the training, philosophy and approach of every operator (*always in the therapeutic field and for general and holistic and non holistic wellbeing*) ; for example a doctor could create a good catalyst of antibiotic or other things, a psychiatrist could create Valium, a dentist could make an ant inflammatory, an homoeopathist some ibericum, a psychotherapist or a hypnotherapist some positive messages for the subconscious (in addition to utilize the mental synthesis "radionic graphic n.16 of the basic course"), an herbalist some thyme, a flower-therapist some Bach Flowers, a crystal-therapist could create a rose quartz, a cromothapist some colours, an astrologer will be able to direct some planetary and of galaxies influences and in order to treat diseases, a Reiki operator or a spiritual healer will be able to channel respective healing symbols without directly treating the patient etc...., in conclusion every therapist led by his own professional knowledge will be able, thanks to some radionic graphics after mentioned with the present lecture notes, to further take advantage for the healing of his own patients and also thanks to his evolution and experience he will be able to continuously personalize more targeted various and good methods on no account.

AT THE END EACH ONE OF THESE HOLISTIC NATURAL AND NON NATURAL THERAPEUTIC APPROACHES, WILL BE COMPLEMENTARY EACH OTHER...

On the bases of such considerations, a new figure of operator born:

THE RADIONIC OR RADIONIC-PRACTITIONER

But now let's go to the hearth of this pioneer experience, starting from the examination of every aspect about the radionic reproduction of the active and energetic principles of any therapeutic remedy, besides creating some other new by ourselves depending on our experience and requirements.

RADIONIC REPRODUCTION METHODS
OF ANY KIND OF VIBRATIONAL AND MENTAL REMEDY
AND/OR PHENOMENON

FIRST METHOD

The radionic graphic “N.1- THERAPEUTIC WATERS PRODUCER”

Thanks to the radionic graphic **THERAPEUTIC WATERS PRODUCER (N.1)**, we can reproduce the frequency or radiation of any word-witness and/or any vibratory remedy tested also through the radiesthetic guided way on the respective radiesthetic tables of p.19, writing clearly the name in black ink and in capitals inside the three upper identical right-angles, as for example: Aloe Vera, Hipericum, Aspirin, ecc...In this way you'll create an object-witness of the remedy itself and it will optimize and complete this radionic graphic which in turn will charge the glass of natural water positioned in the centre of concentric circles which are in the centre of the decagon; note: for the same therapy you can't insert in the three identical right-angles more than n.6 remedies.

The presence of the decagon, which attracts and amplifies the vibration of the word-witness mentioned inside the three upper right-angles, and the presence of concentric circles, further broadcasts and amplifies always the vibration of the object-witness of the remedy itself to the glass of water positioned in the centre and make this radionic graphic a very valid and simple therapeutic instrument on no account.

Thanks to the standard guided radiesthetic course carried out upon radiesthetic tables from pag.19, where all a series of holistic natural and vibratory known remedies are mentioned, it is possible to gather the methodology as well as the respective remedies are used to optimize a more targeted radionic therapy for any pathology on any subject (*such tables can be inserted or substituted with other tables made by the operator on the basis of therapeutic methodologies more suitable for the requirements of any kind of approach and/or illness*)

In order to take on the beneficial frequencies or radiations of this optimized graphic, it is necessary, every time, to magnetize some natural water in a white glass with a maximum capacity of 20 cl. And with a flat bottom, not goblet and without promotional writings (*the typical trattoria glass*), by putting it for about 1 hour in the middle of the concentric circles of the graphic; afterwards it is possible to drink the magnetized water on an empty stomach, if it's possible. Do this operation 3-4-5 times a day, for one month or more (test through the pendulum daily glasses and the treatment period).

Note: it's necessary to use the graphic for the charge only in the fixed magnetization time, that is no more than 4-5 hours a day if we take 4-5 glasses, because the remaining time of the day will be useful to the waveform of the radionic graphic to restore its original magnetic charge.

SECOND METHOD

RADIESTHESIC TECHNIQUE OF NUMBERS ON THE RADIONIC RADIESTHESIC GRAPHIC “N.2- THE COSMIC NUMBER”

Through this unique radionic radiesthesic graphic, it is possible to radiesthesically reproduce any vibration or mental intent in the form of numbers (*see the mentions in the chapter THE RADIONICS on the lecture notes of the basic course*), that will be used as object-witnesses in all the radionic graphics linked to them besides the ones for the broadcasting of the therapeutic frequencies themselves, as in the previous therapeutic waters producer graphic, or on the graphic “the 4 lozenges” (*of which we’ll see the use later on*) for the healing at a distance.

This second method of the Cosmic Number introduces the first steps on the radiesthesic methods for the creation of particular frequencies and for the reproduction of complex psychic phenomena for a more targeted therapeutic and non therapeutic action (help yourself also with the radiesthesic tables from p. 45 to p.46 testing the key word about the nature of your mental intent or action more suitable for any therapy and not).

PRELIMINARIES

- as a first preliminary, activate the radionic radiesthesic graphic n.2 of the basic course (The Yogi Amplifier) by applying the radiesthesic operator’s photo (yourselves in this case) upon the yogi’s head in the high part of the graphic, then realize an object-witness on a white paper leaflet writing clearly in black ink and in capitols

“ SEARCH FOR THE COSMIC NUMBER FOR.....” (simply and clearly mention the object you are looking for, which will be a situation, a specific healing message etc.....as for example: **“SEARCH FOR THE BENEFICIAL NUMBER THAT MARIO ROSSI NEEDS THE MORE”**, or **“.....FOR MARIO ROSSI’S LIVER DESEASE”**, or **“.....FOR THE RESTORATION OF MARIO ROSSI’S VITAL FORCES”**, or **“.....FOR MARIO ROSSI’S FUNCTIONAL/EMOTIONAL/PHYSICAL/MENTAL/SPIRITUAL REBALANCING”**, etc.....and in the end for any therapeutic action tested to afterwards realize a more targeted therapy for any purpose)

that you’ll make more energetically reliable by keeping it in the centre of the decagon (*the radionic radiesthesic graphic n.1 of the basic course*) for 30 minutes, to after put it together with the object witness of the person you’ll look for (*provided that it will concern a person*) in the centre of the radionic radiesthesic graphic n.2 (the Yogi Amplifier), so that it will be active.

- as a second preliminary (*simultaneously and/or not with the previous one*) you can also impregnate your pendulum with the intent energy of the healing message at issue, by putting your pendulum (*besides the subject-witness*) for 30 minutes in the centre of the radionic radiesthesic graphic n.5 of the basic course (*the Amplifier*) together with an object-witness that you’ll realize and where you’ll clearly write on a white paper leaflet in black ink and in capitals, the message concerning your search, that will be **“RESTORATION OF MARIO ROSSI’S VITAL FORCES”**, or **“MARIO ROSSI’S EMOTIONAL/PHYSICAL/MENTAL/SPIRITUAL REBALANCEMENT”**, or **“MARIO ROSSI’S LIVER HEALING”** etc.....and in the end for any action that you’ve tested for the realization of a more targeted therapy for any purpose.

In this way you’ll make use of valid energetic aids to use the radionic radiesthesic graphic N.2 “The Cosmic Number”, that we’ll see in a short while, at best and more precisely:

In order to get a number corresponding to any vibration, lay the graphic **N.2** (the cosmic number) in front of you, with the symbol of OMEGA down and the symbol of ALFA upwards; now take your pendulum and let fall down in the middle of the graphic between the digit 15 and the digit 9; if you have to look for a beneficial number for any therapeutic action and not, or a number corresponding to the vibration of a yet inexistent remedy that will be then aimed at any problem previously set on by you for any patient, you can put in this point object and subject-witnesses; then absorb their vibration with the pendulum letting it rotate in a clockwise direction for a few minutes; however if you want to search for a number corresponding to the vibration of any remedy and/or non remedy, always put in the middle of the graphic between the digit 15 and 9 its object-witness realized with the decagon's method, or, yet better, put the object itself of any witness like for example a pill, then absorbing their vibration with the pendulum for few minutes, letting it rotate in a clockwise direction; after few minutes, when you have impregnated the pendulum with the witnesses' energy and correctly completed all the preliminary steps about THE USE OF THE PENDULUM in the lecture notes of the basic course, put your pendulum the following question: **"IS THERE A BENEFIC NUMBER FOR.....(MARIO ROSSI'S LIVER DISEASE)"** or **".....FOR MARIO ROSSI'S VITAL FORCES RESTORATION"**, or **".....FOR MARIOM ROSSI'S EMOTIONAL/PHYSICAL/MENTAL/SPIRITUAL REBALANCEMENT"**, etc.....or: **"IS THERE AN ACTIVE NUMBER OF THIS COLOUR, REMEDY, MENTAL ACTION, etc.....and finally for any tested action to realize afterwards a more targeted cure for any purpose;** or **"IS THERE A NUMBER CORRESPONDING TO THE VIBRATION OF(mention the object, remedy, situation, etc.....).....?"**

At this point if your pendulum will swing along the straight line linking ALFA and OMEGA symbols, the answer will be affirmative, vice versa if your pendulum will continuously swing in a circle or it doesn't move at all, the answer will be negative and in this case you'll have to plan a new message or a new mental intention.

If your pendulum will answer in the affirmative, proceed as below:

- at this point drop a perpendicular with the pendulum on the OMEGA barycentre and radiesthesically absorb its radiation for some minutes, letting it rotate in an anticlockwise direction;
- now ask your pendulum the following question: **" HOW MANY DIGITS ARE IN THE BENEFIC/ACTIVE NUMBER FOR..."**, little by little the pendulum, through its oscillation, will show you the square corresponding to the digits of your beneficial number that you'll write on a piece of paper.
- Once you know that the cosmic number will be of XX digits (from 1 to 15), take your pendulum and drop a perpendicular with it on the ALFA barycentre of the high part of the graphic letting the energy of the symbol itself impregnate in anticlockwise way;
- At this point ask the pendulum the following question: **"WHAT IS THE FIRST DIGIT OF THE BENEFICIAL/ACTIVE NUMBER FOR....."** and then **"WHAT IS THE SECOND DIGIT....etc.....etc.....until you have all the digits.....little by little through its oscillation the pendulum will show you the square corresponding to the first/second/third/etc....etc.....number that you'll write on a piece of paper , so that you'll complete your work.**

At the end, the number you've realized, will be a very valid energetic object-witness that you can insert in the radionic graphic **N.1 – THERAPEUTIC WATERS PRODUCER** which will transmit the frequency to the glass of water, or, you can use it for the treatment at a distance on the radionic graphic **N.3 (the 4 lozenges)**, as we'll see further on, realizing it before on a white leaflet written clearly in black ink and in capitals, and then putting it in the middle of the

decagon (*the radionic radiesthesic graphic n.1 of the basic course*) for 30 minutes so that it will be more reliable.

Moreover you can also help yourself with the radiesthesic tables from p.45 to p.46 testing the key word about the kind of your mental intention or action more suitable for any kind of therapeutic, psychic and non psychic action.

VERY IMPORTANT

IF YOU'VE REALIZED A NUMBER CORRESPONDING TO ANY KNOWN VIBRATION, AS FOR EXAMPLE IN THE CASE OF A VIBRATIONAL REMEDY, SPECIFIC ALLOPATHIC OR OMEOPATHIC REMEDY, THIS ONE WILL BE **FINAL** AND VALID **FOREVER** FOR ANY RADIONIC USE IN ANY CASE AND FOR ANY SUBJECT (*CREATE LITTLE BY LITTLE A LIST OF NUMBERS CORRESPONDING TO SPECIFIC REMEDIES OR STANDARD ACTION*); IN CASE OF PHENOMENA OR PSYCHICAL ACTIONS MORE OR LESS KNOWN, WHICH ARE COMPLEX AND CORRESPONDING TO A SPECIFIC SUBJECT, NUMBERS WILL BE VALID ONLY IN THAT SPECIFIC CASE AND FOR THAT SPECIFIC SUBJECT.

“ Remember that numbers or geometric forms don't produce energy, only the operator's radiesthesic intent of that precise moment can reproduces these frequencies, making them concrete in this case also through numbers”.

NOTE: ALL OBJECT-WITNESSES OF ANY VIBRATION REALIZED WITH THE COSMIC NUMBER METHOD , ARE MORE EFFECTIVE AND DIRECT, BECAUSE THE RADIONIC RADIESTHESIC GRAPHIC N.2- “THE COSMIC NUMBER” AMPLIFIES THE OPERATOR'S INTENT WHO WILL ALWAYS REPRODUCE ANY INTENTION THROUGH NUMBERS.

THIRD METHOD

DECAGON RADIESTHESIC TECHNIQUE ON THE RADIONIC RADIESTHESIC GRAPHIC n.1 OF THE BASIC COURSE “THE DECAGON”

The third method consists in realizing some object-witnesses in a classic way, that is to say in the way we learned in the Basic Course; these object-witnesses will be used with the subject-witness inside the different radionic graphics provided both in the Basic Course, in the Advanced Course and for the cure at a distance, channelling the healer bio radiations of the graphic themselves to the subject-witness in a more targeted and effective way, so that every therapy of any tested approach will be personalized.

Moreover, thanks to the “standard” guided radiesthesic course realized on the radiesthesic tables from p.19, where it’s mentioned **a series of natural holistic and vibratory known remedies**, it is possible to know the methodology and the respective remedies which are useful to optimize a more targeted radionic therapy for any kind of pathology on any kind of subject (*such tables can be inserted or replaced with other tables realized by the operator according to therapeutic methodologies more suitable as any kind of approach and/or illness may require*); so according also to the response of this radiesthesic test about more suitable vibratory remedies (*also suggested by such tables in this lecture notes*) the operator will be able to realize them in the form of object-witness for all radionic uses, personalizing every therapy also on all the radionic graphic known until now.

How to create an object-witness by yourself

(which will be **a colour, an allopathic and homeopathic medicine, a vibratory remedy like for example stones and crystals, metals, vitamins, flowers, herbal extracts, plants, animals, any kind of essence, a planetary or of interplanetary and cosmic origin influence, a thought, a symbol, a writing, musical notes, a complete sky map prepared by a qualified astrologer for the correction of the possible tested bad planetary influences, a Sanskrit passage from the Holy Scriptures, a mantra, a charismatic figure like Buddha, the Christ or high spiritual brains of any kind of culture like Angels and Archangels, etc.....and finally all kinds of things which reproduce vibration remembering that all the oriental scripts, ideograms, symbols or hieroglyphics, express more directly and clearly any kind of thought, intention and everything**).

so simply take a white leaflet and write clearly on it in black ink and in capitals, the kind of your subject-witness that you have tested for your treatment remembering that for the radionic treatment on any radionic graphics it is possible to use as object-witness also the object’s witness itself like for example: a pill, a fluid homeopathic bottle, or the object’s photo itself of any vibratory body like for example those of planetary things, galaxies, precious stones, relics, directions of any remedy, etc.....; once you’ve chosen, tested and prepared it, let it charge in the middle of the decagon for 30 minutes, every time before using it.

In the next page, there is a list of a few examples about interesting experiences to do with **word, colour and remedy etc.....**object-witnesses for radionic uses inside radionic graphics provided for in the Basic Course, so that the operator will be able to know how to realize his personal object-witnesses also inside other radionic graphics he has.

<u>EXAMPLE ABOUT THE RADIONIC GRAPHIC</u>	<u>INTERESTING EXPERIENCES TO DO AND TEST</u>
Increase of energetic potential (n.23 of the basic course)	Knowing that this radionic graphic considerably “increase” every form of energy, you can personalize it according to your needs concentrating its action through an object-witness realized and charged on the decagon before. Then put it in the middle of this graphic with the object-witness; the terms used for the realization of this object-witness will be also different because the action is that one of strengthening energy; so for example: RESISTENCE TO THE STRESS, SUCCESS, HEALING , etc....(test with the pendulum the more suitable message)

<u>EXAMPLE ABOUT THE RADIONIC GRAPHIC</u>	<u>INTERESTING EXPERIENCES TO DO AND TEST</u>
Eliminator of bad energy (n.15 of the basic course)	Knowing that this powerful radionic graphic “uniimpregnates” in a precise way every bad energy in every living and not living being, personalize it according to your need concentrating its action through a precise object-witness, previously realized and charged on the decagon; so in case you have a subject affected from “LEAVER TUMOR” realize an object-witness writing “UNIMPREGNATION OF MARIO ROSSI’S LEAVER TUMOR, LET IT COME BACK TO THE EARTH” , then put it in the middle of the graphic n.15 with the subject-witness, testing times of radionic emission; or “TOTAL UNIMPREGNATION FROM (mention things, people, animals situations, vices, etc....always linked to the impregnation), LET COME BACK TO THE EARTH” , or in order to UNIMPREGNATES CYSTS, NODULES and in the end ALL THOSE FORMS OF STAGNANT ENERGY CREATED FROM/IN THE BODY, MENT, EMOTIONS AND SPIRIT which cause any disease , you can also use it as a radionic scalpel: all this is valid also for animals, plants, environment, situations, etc....

<u>EXAMPLE ABOUT RADIONIC GRAPHIC</u>	<u>INTERESTING EXPERIENCES TO DO AND TEST</u>
Preventive protection (n. 14 of the basic course)	Having understood and verified that this very powerful radionic graphic “protects” in a preventive way every living and non living being from every bad energy, you can personalize it according to your need concentrating its action through an object-witness realized and charged on the decagon before; so in this case you can operate only in the “preventive protection field”; in case you have a subject which is sensitive to any external energy , for example psychic, telluric, planetary, radioactive, natural, viral, allergic etc .. energy, realize a kind of object-witness like for example: TOTAL PROTECTION FOR MARIO ROSSI FROM ENERGY OF..... (if you know it, mention the name and surname of the person who psychically attacks our subject) (<i>through mental interrogation to your pendulum</i>) LET IT COME BACK TO THE EARTH, or FROM BACTERIUM ENERGY, or FROM POLLENS ENERGY (you can mention those verified by the pendulum or the doctor) or FROM NATURAL RADIATIONS (mention them if you know them),and in the end all this which come from the outside.

Moreover in this way, you can realize other object-witnesses on all the radionic graphics you have, remembering that you have to create them on the base of the kind of radionic graphic you are going to use, for example: if you use a radionic graphic for hormonal problems, in order to more and precisely concentrate its healing action on a particular verified and tested dysfunction, in this case your chose of words for the preparation of your object-witness will be linked with a specific part of the hormonal system; if it's a graphic for the intestine your object witness will be linked with a specific part of all the intestinal system, if it's a radionic graphic for chance and success your object-witness will be linked with all those situations of daily life and not linked with the success, like business, games, friendships, relations, and why not, also healings!!!!,and so on for all the other radionic graphics you have.....(*looking for the kind of your object-witness help yourself also with radiesthetic tables from p. 19 to p. 46*).

NOTE: ALL OBJECT-WITNESSES OF ANY VIBRATION REALIZED WITH THE METHOD OF THE COSMIC NUMBER, ARE MORE EFFECTIVE AND DIRECT.

THE HEALING AT A DISTANCE THROUGH RADIONIC CIRCUIT N. 3 –THE 4 LOZENGES

This fantastic radionic system can cast at a distance in space and time, to any subject, a person animal, vegetable, object, situations etc....., radiations or vibrations of any kind of object-witness realized through different radionic and non radionic methods and any remedy itself.

How to activate it

First of all it's necessary to turn this graphic to face North; then put any object witness in the middle of the graphic (*if you have to do with a person they will be nails, hair, etc...*); for this you'll transmit at a distance the radiation you've tested for any therapeutic and non therapeutic action, with all kind of therapeutic and non therapeutic object-witnesses that you realized at the beginning through different methods, like the cosmic number written in black ink on a piece of paper, the decagon technique, or the vibratory remedies of the radiesthetic guided way and realized on some radiesthetic tables from pag.19 made through the decagon technique and/or the cosmic number. Help yourself also with radiesthetic tables from p. 45 to p.46, testing the key-word about the kind of your mental intention or action more suitable for any therapeutic psychic and non psychic action; note: through the radionic graphic N.3 you can't combine more than 4-5 remedies for each emission and subject.

Once you have activate it, the graphic N.3 will be active for about 3 hours; then you have to take away all witnesses and let again the lozenges charge of its original energy for other 3 hours (*moreover three hours a day of radionic emission are sufficient to do a day therapy; test for each subject with your pendulum the more suitable times*).

Moreover, for a more direct and effective radionic action, through this radionic graphic, it's possible to cast the object itself of an object-witness to any subject-witness like for example a stone, a pill or a fluid homeopathic bottle; but after the 3 hours of radionic emission these last remedies irremediably lost a lot of their original energetic charge and, also if you will recharge them on the decagon or on radiesthetic graphics N.6 and N. 7, in order to activate energy again, within some time the remedies will be more exhausted and not more usable; anyhow if you'll realize your series of remedies writing them on a white leaflet, use the decagon method because it's always effective and above all it's on no account!!!!....The only approach like the previous one (*but on no account*) that you can utilize, besides the cosmic number, it's the object itself of the object-witness coloured on a small piece of paper in the traditional way, through natural pastels or boards perfectly coloured by a printer; naturally you have to use colours suitable for the subject and method and tested by the pendulum, so you'll do the chromo-therapy; but is this method suitable for our subject? The answer is "Not always".....(*in the course "Master of Radionics and Radiesthesia" we'll see how it's possible, also thanks to colours, to faithfully reproduce the frequency or radiation itself of any energetic and radionic approach, that is to say how to turn to frequency of colour the frequency of any vibratory remedy, of a medicine, essences etc...etc...and all that you want, according to the operator's approaches, so that you realize a more direct radionic method of canalization through the radionic use of the object-witness itself.*

**NOTE: ALL THE OBJECT-WITNESSES OF ANY VIBRATION REALIZED TROUGH
THE COSMIC NUMBER METHOD ARE MORE EFFECTIVE AND DIRECT.**

THE MEDICAL RADIONICS
RADIONIC GRAPHIC N.4- THE CURATIVE DRAUGHTS
(action at a distance)

This graphic of medical radionics allow you to operate on any physical illness. To activate this graphic you need to prepare two object-witnesses besides the usual subject-witness. If you have tested through the pendulum that this graphic will help you the more for the targeted therapy of your subject witness in the standard guided radiesthetic course from page 19, the next step is to test, always on the subject-witness through the radiesthetic table of pag.45, the localization of the different troubles or to consult a doctor; once you've known, through this table, the position of the principal cause of a specific trouble, realize an object-witness through the decagon method of pag.8 where you'll briefly mention a specific message of healing: for example: if you've tested on your subject that the principal cause of his physical troubles is in the circulation, realize an object-witness like this: **"RIEQUILIBRATION OF BLOOD PRESSURE"**. An other method for the realization of an object-witness for the Curative Draughts, if you don't know the specific nature of the causes of your patient's disease and if you want to realize a more targeted action of recovery, is that of the Cosmic Number of pag.5, asking your pendulum the following question: **"IS THERE A NUMBER REPRESENTING A MORE TARGETED ACTION OF PHYSICAL RECOVERY FOR MARIO ROSSI WHERE THE CURATIVE DRAUGHTS HAS TO OPERATE?"**, etc..... Remember that the more the object-witness you'll realize to activate the Curative Draughts will be mentioned in a specific way and the more the therapy will be direct and targeted; so if you realize an object-witness on the base of the a doctor diagnosis or through the cosmic number, you'll lead your patient to a speedier healing (*anyway you can utilize also some words according to your own experience*); in the second object-witness you've to mention the address of the person who will make use of this healing at a distance, or better, where he usually spends the majority of his time during the 24 hours, for example: home, place of work or if he's at hospital you've to mention the complete address including floor, ward, room and bed numbers because this graphic will be active only when the subject is at the address you've mentioned on this second object-witness. Also provide you an "identical" couple of circular metallic colourless washers which have to be smaller than a square of draughts; once you've buy and used them sometimes, discharge them through the magnet. Now let's see how to activate it: lay the graphic **n.4** in front of you; then put the first object-witness, where you've mention the message of recovery or of a number, in the right rectangle above the draughts, making sure you've realized this object-witness on a rectangular leaflet, you've put it inside the right rectangle above the draughts and you've written it in black ink and charged it on the decagon for 30 minutes before; now put the second object-witness, where you've mention the place of healing, inside the left rectangle above the draughts, making sure you've realized this object-witness on a rectangular leaflet, you've put it inside the left rectangle above the draughts and you've written it in black ink and charged it on the decagon for 30 minutes before; put the subject-witness of who will make use of the therapy in the small central square.

At this point we have to know, through our pendulum, the relevant combination of the beneficial square linked with the therapy for our object-witness. Now ask to the pendulum this question: **WHICH IS THE RELEVANT COMBINATION OF THE MORE BENEFICIAL SQUARE FOR THE PROBLEM (FOR EXAMPLE: IN THE LIVER) OF MARIO ROSSI?.....**(*to find the right combination try before from 1 to 8 and then from the letter a to h*); for example if the response will be 4 and then f, put the first metallic washer in the square f4, while put the other washer on the object-witness inside the central small square.

Since this moment the graphic is active; test all days of emission considering that it's active when the subject is at the address you've mention; it's possible that every 2-3 days or more (*always test through the pendulum*) the more suitable combination for the same problem will change, so you've to continuously test, for a time more or less fixed, the more beneficial combination and reactivate it on new squares every time you need to do it.

THE RADIONIC GRAPHIC N.5-S.O.S. HEALTH

This radionic system allow you to operate on any subject at a distance only in case of emergency, like for example shocks or illnesses or when someone is admitted as an emergency patient at hospital, or also when an illness is more or less evident, in case of convalescence, etc..... Through the witness it transmits to the subject all vibrations of any kind of remedy like allopathic medicines, natural and vibratory medicines or a colour etc., according to the doctor's advice or tested through the pendulum on a series of remedies you know, also those mentioned on the radiesthesic tables from pag.19, asking to the pendulum a question like this: **“WHICH OF THESE REMEDIES IS MORE SUITABLE IN THIS MOMENT FOR MARIO ROSSI'S EALTH PROBLEM”?**

In order to activate the radionic graphic **N.5**, put the subject-witness in the middle of the six concentric circles positioned on the higher part of the graphic, while put all kinds of object-witness of tested remedies, mentioned on a white leaflet in black ink, in the middle of the concentric circles in the lower part; or for a more direct action, it's possible to put the object itself of all witnesses like pills, bottles of fluid medicines, coloured boards, stones, essences etc.....

Times of radionic emission for this radionic graphic change in any case and for any subject-witness from 10 to 20 minutes (*always test through your pendulum the more exact minutes*). Usually you can use the radionic emission through this graphic only once, but when your patient is continuously in emergency, test always through your pendulum for how many days you need to do again a session of 10-20 minutes, by continuously testing again the remedies for which you use the radionic emission; moreover you'll chose more than one day session, provided that your pendulum will suggest you and in case of extreme and prolonged emergency.

SOME RADIONIC REMEDIES **COMMONLY USED**

THIS STANDARD RADIONIC GRAPHICS COMMONLY USED COMPLETE THE 24 RADIONIC REMEDIES EXPLAINED IN THE BASIC COURSE.

RADIONIC RADIESTHESIC GRAPHIC N.6- REVIVAL OF ALL WITNESSES AND REMEDIES ENERGIES

This useful radionic radiesthesic graphic allow you to revive in a total way the energy of any object and subject witness that you haven't used for a lot of time , or that you've continuously used for all radionic and/or radiesthesic uses like photos, nails, hair, homeopathic bottles, stones and crystals, allopathic, natural, vibratory medicines, essences and non essences, etc.....

If you continuously use the same object or subject-witness in a radionic and/or radiesthesic way, even if every time before its use you've charge it on the decagon to confirm again and amplify energy, in the course of time, of months, it will be exhausted all the same; so through this radionic radiesthesic graphic the object or subject witnesses can go back to their original energetic condition. So for the use of the radionic radiesthesic graphic **N.6** put any subject or object-witness in the middle of the two concentric circles in the lower part of the graphic and let them charge for 15 minutes. Note: moreover you have to charge once a month all kind of witnesses you'll continuously utilize for 15 minutes with the graphic **N.6**.

RADIONIC RADIESTHESIC GRAPHIC N.7- THE MAGNETIZER

Characteristics and utilizations of this radionic radiesthesic circuit are similar to those of the decagon and the amplifier , but there is a small difference: this system is a true magnetizer; moreover you can use it for all kinds of radiesthesic searches with the pendulum, so that you have a further energy and exacter answers and it is also possible to magnetize or charge any object-witness. You could radionically use it for any subject witness if your pendulum suggest you to do it while you're looking for the more targeted radionic therapy, considering that it's active like a true magnetizer, that is to say that it is a bigger contribution of force and rooting energy (always test trough your pendulum radionic emission times for any kind of subject and times of treatment.

RADIONIC GRAPHIC N.8- THE PSYCO- PROTECTOR

This is the specific radionic graphic only for physical protection of external people who are envious, jealous, who bear someone a grudge and all those feelings or physical conscious or unconscious actions channelled through radionic and non radionic actions which are negative or injurious for someone, or also conscious or unconscious thoughts. First of all turn this radionic graphic **N.8** to face north, then simply put the subject-witness of the person you have to protect for 20 minutes every 2-3 days (always ask the pendulum) and for a more targeted action, if you need it, for 3 hours a day for 4 days; then you can test more targeted times and periods for your subject. For a more targeted action of physical protection, if you know or you've tested with the pendulum the entity or name and surname of the person who , improperly and continuously, physically pester in an injurious way your subject which suffer from it for his high sensitivity, realize an object-witness of the person who psychically pester your subject in different ways through the object-witness method on the decagon (or if you can, take his subject-witness), put it on the north camber of the graphic; put always in the centre the subject-witness of the person you have to protect while put on the south

camber an object-witness realized on a white small piece of paper writing in black ink **“RETURN TO THE EARTH”**; in this way bad thoughts and/or intents of any suspicious character come back to the earth so that other new occult manifestations will be consequently inhibited at the root; radionic emission times for this second method are identical to those of the previous one. Note: use this graphic only in case of absolute and tested need.

THE RADIONIC GRAPHIC N.9- THE PSYCO-INDUCTOR

This radionic system allow you to transmit to the subject a further energy of any positive message as LOVE, PEACE, SERENITY, JOY, A COLOUR, A REMEDY, etc.....; for example in case of an artist the more suitable message will be MORE CREATIVITY with the blue colour. Use the radiesthesic table of p.46 in order to test with your pendulum the positive mental or spiritual quality more suitable for your subject. In order to activate the radionic graphic **N.9** you need to turn it face north: realize with your pendulum the object-witness of mental positive tested quality that you have to channel at the beginning , for example: love, vitality, sympathy, etc.....and put it on the south camber of the graphic, while put the subject –witness on the north camber. For a more effective action of the object-witness, you can put in the centre of the graphic any kind of object-witness, like a colour, a remedy, a symbol, stones and crystals, etc....which obviously goes well with the quality you’ve to channel, described on the object-witness positioned in the south camber (*always test with your pendulum the more suitable remedy or object-witness on the radiesthesic tables of page 19*); let the graphic active according times in terms of days, weeks or months that you’ve established through the pendulum.

RADIONIC GRAPHIC N.10 PSYCOLOGICAL SELECTOR

This radionic graphic works within the psyche and allow you to select the right choice among the different situations of daily life by suggesting you through the intuitive thought for any kind of problem. Trough an object-witness realized with the decagon method, like for example: **“THE CHOICE FOR A WORK MORE SUITABLE FOR MARIO ROSSI”**(*if your subject is not sure about the kind of work he would like to do being confronted with different possibilities of employment*), you can personalize the graphic **N.10** for every situation of daily life. In order to activate this graphic you need to turn it face north. Put the object-witness in the centre and put on it the subject-witness, let it active during days, weeks, months according to the complexity of the problem until you solve it. Meanwhile the radionic graphic **N.10** operates into the subject’s sub consciousness and lead it to the right choice more suitable; then you can deactivate it. Note: don’t try to hold back your real tendencies suggested by the Psychological Selector.

RADIONIC GRAPHIC N.11 SENSITIVITY RENFORCEMENT

This fantastic radionic graphic sharpens and favours the spiritual sensitivity, the “interior eye” opening and the intuitive perception of some subjects; moreover it further energetically helps any advanced radiesthesic operator. You have to use this very powerful graphic after the radionic graphic n.20 **“OPENING TO THE CONSCIOUSNESS”** of the basic course. In order to activate the radionic graphic **N.11** you need to put the subject-witness in the barycentre of the drawing, testing with the pendulum, radionic emission times for each subject.

IMPORTANT WARNING ABOUT RADIONIC MATERIAL

Do not absolutely expose these graphics to temperatures above 50°. Keep away from direct light above 40 watt (so do not **PHOTOCOPY** these original circuits), to avoid they lose their energetic charge. Each graphic is realized on common paper, cold printed by an ink jet printer using a particular magnetized ink; after their use, do not use each graphic within the next 24 hours because in this time the waveform will have its original energetic charge. Do not preserve the graphics for a long time closed in a drawer in a dark room, sometimes put them in the light.

HOW TO TEST A MORE TARGETED THERAPY ON THE RADIESTHESIC TABLES OF VIBRATIONAL REMEDIES

PRELIMINARIES

- as first preliminary, activate the radionic radiesthetic graphic n.2 of the basic course (the Yogi Amplifier) by putting the radiesthetic operator's photo (in this case yourself) on the Yogi's head in the higher part of the graphic; then realize an object-witness on a white leaflet writing clearly in black ink and in capitals "**LOOKING FOR THE MORE TARGETED THERAPY FOR.....**" that you will make more energetically reliable by leaving it for 30 minutes in the centre of the decagon; then put it in the centre of the radionic radiesthetic graphic n.2 (*The yogi amplificatory*) with the subject witness of the person for who you'll do your search (*if it's a person*); in this way you activate it so that you can better enter in bio-resonance with the subject-witness for testing his more targeted therapy.
- As second preliminary (*at the same time or not as the previous one*), you can also impregnate your pendulum with the energy of the same intent of the previous message, by putting it for 30 minutes in the centre of the radionic radiesthetic graphic n.5 (*the Amplifier*) of the basic course with an object witness (*besides the subject-witness*) where you'll clearly write by a black pen in block letters the message about your research that always will be "**SEARCH FOR A MORE TARGETED THERAPY FOR.....**"

In this way you'll have valid energetic aids to use your pendulum in the better and more precise way during the search for any patient through the following method :

THE REAL TEST

- Now lay the radionic radiesthetic graphic **N.7** (the Magnetizer) or the radionic radiesthetic graphic n.5 of the basic course (the Amplifier) in front of you. Then put the subject-witness in the centre of the graphic (*test which radionic radiesthetic graphic is more suitable to do a more reliable search*); drop a perpendicular with the pendulum in the middle of one of the two graphic; then put a subject-witness always in the middle of the graphic and let charge it in anticlockwise way; (*have pen and paper at your disposal so that you can write the response of your test and also all the radiesthetic tables from pag.19 to pag.47*)
- At this point do all the preliminaries explained in the capitol "how to use the pendulum" of the basic course;
- Once your pendulum said you that you can start to do the test, always ask it this question having next to you the radiesthetic table of pag.19: "**WHICH OF THESE THERAPEUTIC METHODS IS MORE RECEPTIVE FOR(mention name and surname).....?**" (in this way you can test the more targeted therapeutic methodology for your subject and then you'll test the more targeted remedies about the methodology itself in the respective tables according to the response).

For example: if the more suitable therapeutic methodology for the subject is " the phyto-therapy", you'll test his therapy on all the phyto-therapeutic remedies of pag.20, for the metal-therapy you'll test all remedies of pag.21, in case of flower-therapy you'll test the more suitable floral remedies of pag.30 before and then the respective remedies on the respective tables, etc.....etc.....

Once you've tested a series of therapeutic methods and remedies (*except for the radionic remedies of pag.22 and the ideodynamic technique of pag.23*), you have to know which is the more suitable methodology for the subject in order to channel the vibratory therapy ; so ask the pendulum this question: "**TO WHICH OF THESE METHODS IS MORE**

RECEPTIVE....(mention name and surname).....IN ORDER TO ABSORB VIBRATIONS OF HIS THERAPY?"

- a) On the radionic graphic “ Therapeutic waters producer?”** *(follow the instructions of pag.4)*
- b) On the radionic graphic “The 4 lozenges” for the action at a distance?** *(follow the instructions of pag.11)*

At this point, once you’ve tested the more suitable method of channelling for the subject’s therapy, you’ve to test treatment times with the respective posology by asking the pendulum:

For the method a) on the radionic graphic “ Therapeutic waters Producer”

“HOW MANY GLASSES OF WATER CHARGED ON THE THERAPEUTIC WATERS MAKER GRAPHIC, HAS MARIO ROSSI TO DRINK A DAY TO DO HIS THERAPY?” and then **“FOR HOW MANY DAYS/WEEKS/MONTHS HAS MARIO ROSSI TO DO THIS THERAPY?”**;

For the method b) on the radionic graphic “the 4 lozenges” for the action at a distance

“FOR HOW MANY MINUTES/HOURS HAVE I TO ACTIVATE THE THERAPY FOR MARIO ROSSI THROUGH THE 4 LOZENGES THERAPY?” and then **“FOR HOW MANY DAYS/WEEKS/MONTH HAS MARIO ROSSI TO DO THIS THERAPY?”**

**NOTE: INFORM YOUR PATIENTS THAT THESE THERAPEUTIC METHODS
DO NOT ABSOLUTELY SUBSTITUTE
THE OFFICIAL AND MEDICAL THERAPIES.**
